Greek sea food tradition

*Embark on a journey through the rich history of winemaking in Chalkidiki, a land steeped in myth and legend for over 3,000 years.*

*Legend has it that the giant Enceladus rests beneath Cassandra, while the Athos peninsula was formed by a rock thrown by the giant Olympus. Sithonia's name traces back to Sithon, son of Poseidon.*

*Nestled between the Aegean Sea, the three peninsulas of Cassandra, Sithonia, and Athos host thriving vineyards. The warm, dry climate, tempered by sea breezes, nurtures a variety of grapes, creating the perfect conditions for winemaking.*

*The monasteries of Mount Athos continue an ancient tradition of winemaking, revitalizing this age-old craft. Blessed with ample sunlight, mountain coolness, and sea breezes, Mount Athos yields wines of distinctive regional character.*

*Discover the extraordinary wines of Greece, where each sip is a journey beyond the ordinary.*

*Enjoy*
